Cheating

- It is a **very important part** of your university **education**
- You should **do your own job**
- **Simple Rule:**
 - Never use someone else's codes
 - Do not let someone copy your work
- **If cheating is found**
 - **Zero mark (both)**
 - **Report to the School and the University**

7

LLM Guideline

- **Not Allowed**
 - submitting AI-generated work **without understanding**
 - copying code or analysis **blindly**
- **Transparency Requirement**
 - You must clearly document:
 - where LLMs were used
 - what prompts were used (summary form)
 - how outputs were verified or modified
